

**Pioneer Movie Actor Dead.**  
Killy C. Chamberlain, a movie picture actor with the Thanhouser Company, died in New Rochelle yesterday at the age of sixty-two. He acted for one of the first two-reel movies ever produced. Before going into the movie he was well known on the stage, and appeared in many plays. He was born in Grand Rapids, Mich., and was a farmer and cowboy. Mr. Chamberlain was married to Mrs. H. M. Winslow of New York and Miss Belle Chamberlain of St. Louis. His wife was in control of the Boston Opera Company.

### Valued Home Remedies

(Clip Out and Save)

#### To End Coughs

The following formula, easily made at home, makes one of the quickest cough remedies obtainable. After using the water twice in a day, take a teaspoonful as often as necessary.

**Whiskey.** (For night cough) 2 ounces  
Glycerine 1 ounce  
Coke 1 ounce  
Coke 1 ounce  
Coke 1 ounce

It is a very good remedy for coughs, and it can be easily made by dissolving 2 heaping tablespoons of the above in a cup of water. The water to be used is the same as the water to be used in the recipe.

**How to Relieve Rheumatism.**  
After each meal and at bed time take a tablespoonful of the following home-made medicine, now used all over the United States, and noted for its remarkable results. Relief begins at once.

**Syrup of Marshmallows.** 1 ounce  
Coke 1 ounce  
Coke 1 ounce  
Coke 1 ounce

**Frost-bites, Corns, Sore Feet.**  
Baths the feet in warm water to which has been added two tablespoons of the following compound. This gives instant relief for itching, burning or pricking feet; corns, calluses, sore bunions, etc.

One of the foremen is always on duty to meet the customer. At once he gets information as to what the trouble is.

Should the repair be a minor one, it is made at once. A charge is naturally made for material used.

Should more extensive repairs be desired, but still not enough to compel the leaving of the car, a quick order blank is issued. This calls for the detail concerning the work to be done on the car, the time of its entrance and the amount of the charges.

The system shows to particular advantage when any extended work is being performed. An immediate and careful examination of the car is made, while an expert passes judgment as to what will be required to put it in shape again. As each needed repair is discovered, it is entered on a contract and opposite it is set the amount it will cost.

It has been found possible to determine a standard time for the various operations, the cost of materials is naturally a factor known in advance, and it is thus possible to quote the price before the other leaves the garage.

This appraisal is accomplished in from ten to thirty minutes. It does away with all the old uncertainty. The customer knows just what he will have to pay and why.

This system has been found to eliminate 30 per cent. of the old troubles of a service station.

## AUTOMOBILE NEWS AND NOTES

### New Maxwell Truck, Showing Open Express Type of Body

### AUTO SERVICE CHARGES CUT BY NEW SYSTEM

Willis-Overland Stations Always Ready to Locate Trouble and Give Aid.

Questions over service charges have been reduced to a minimum through the system applied by Willis-Overland, Inc. in the four service stations in this territory.

One of the foremen is always on duty to meet the customer. At once he gets information as to what the trouble is.

Should the repair be a minor one, it is made at once. A charge is naturally made for material used.

Should more extensive repairs be desired, but still not enough to compel the leaving of the car, a quick order blank is issued. This calls for the detail concerning the work to be done on the car, the time of its entrance and the amount of the charges.

The system shows to particular advantage when any extended work is being performed. An immediate and careful examination of the car is made, while an expert passes judgment as to what will be required to put it in shape again. As each needed repair is discovered, it is entered on a contract and opposite it is set the amount it will cost.

It has been found possible to determine a standard time for the various operations, the cost of materials is naturally a factor known in advance, and it is thus possible to quote the price before the other leaves the garage.

This appraisal is accomplished in from ten to thirty minutes. It does away with all the old uncertainty. The customer knows just what he will have to pay and why.

This system has been found to eliminate 30 per cent. of the old troubles of a service station.

**GOODYEAR ESTABLISHES SCHOOL FOR DEAF MUTES**

"Silent Workers" Prove Interest in Their Labors for Tire Company.

In line with the recent announcement to Goodyear Tire and Rubber Company employees that the scope of the company's factory schools would be enlarged and opportunity extended to every workman to improve his education, a new division of the school has been inaugurated for deaf mutes.

A preliminary canvass shows that the subjects most interesting to them are business arithmetic, English and mechanical drawing. Accordingly these will be the first subjects to be taught—with others added with the growth of the school. To direct the activities of the new undertaking the company has employed Asilard D. Martin, himself a deaf mute and a graduate of Gallaudet College.

About two hundred of these "silent workers" are now employed at the Goodyear plant. Their experience in building and finishing Goodyear tires and their general efficiency as workmen bear evidence that their peculiar affliction need not constitute a handicap in the battle of life.

**WRIGHT OPENS A NEW BROADWAY SALESROOM**

Equipment Is Complete and All Business May Be Conducted Under One Roof.

One of the latest concerns to join the automobile colony on Broadway is F. W. Wright, Inc., who have taken a show room at No. 173 Broadway for the distribution of Auburn cars.

In addition to the salesroom space on the main floor, the company has commodious quarters in the basement capable of receiving fifty cars, and this is equipped to conduct all of its business under one roof.

The personnel of the new corporation includes F. W. Wright, J. W. Gathard and W. S. Mott. Messrs. Mott and Gathard have had extensive sales experience in other lines and are thoroughly familiar with the merchandising methods as applied to the motor car business, particularly in connection with the rendering of service to the purchasers of Auburn cars.

**WOODS ENTHUSIASTIC OVER A NEW MODEL**

The Passenger Four Is Gaining in Favor, Says a Leading Manhattan Distributor.

"The new Peerless four-passenger car was introduced at the recent show was pronounced by experts to be the smartest roadster they have ever seen," says Vice President W. A. Woods of the Van Cortlandt Vehicle Corporation, metropolitan distributors for the Peerless pleasure cars and motor trucks. "The vogue of the four-passenger car is increasing, and I believe it will prove the striking feature of the coming season."

"Entrance to the two tonneau seats

## BRAZILIAN SHIP REPORTED SUNK BY A TORPEDO

Many Rumors About German Raider Along South American Coast.

**Buenos Ayres, Jan. 24.**—A rumor was circulated today that the Brazilian steamer *Serra* had been torpedoed. This followed reports of a submarine being sighted off the coast of Uruguay. The first form in which this story reached Buenos Ayres was that the Spanish steamship *Reina Victoria Eugenia* had been stopped by a craft, but the *Reina Victoria* passed out beyond wireless communication today and could not be reached to verify the report.

The German raider's "prison ship," the Japanese steamer *Hudson Maru*, left Pernambuco today. She steamed out of the harbor and hugged the shore line closely on her northern course, probably headed for New York and with every anxiety to avoid another capture by the German sea rover.

**Rio de Janeiro, Jan. 24.**—Many stories are being circulated about secret bases and mysterious supply ships along the Brazilian coast. The Minister of Marine sent the Brazilian cruiser *Rei Grande do Sul* and the *Tymbra* to search the coast of the State of Rio Grande do Norte.

**KEEN HUNT FOR RAIDER.**

**Experience of U. S. Schooner Shows Scope of British Search.**

**PENSADELA, Fla., Jan. 24.**—Thoroughness of British search in the South Atlantic for the German raider was shown today by the "story" brought here by the American schooner *Mary E. Palmer*, recently returned from duty.

The schooner had been ordered to search for the raider, and the *Palmer* with shots across her bow. Each time Capt. Hunter was forced to show his papers before being allowed to proceed.

**Six Allied Aeroplanes Lost in Day, Says Berlin.**

**Berlin via Sayville wireless, Jan. 24.**—Enemy forces lost six aeroplanes on the western front yesterday, today's official report asserted. The bright frosty weather resulted in numerous air engagements and the enemy losses were incurred by German defensive fire.

**FIGHT ON SISSON, NAMED FOR EXCISE POST, EXPECTED**

Action of Senate Said to Presage Contest on His Confirmation.

**ALBANY, Jan. 24.**—The nomination of Herbert S. Sisson of Buffalo as State Commissioner of Excise was sent to the Senate for confirmation by Gov. Whitman today. The appointment is to fill the vacancy caused by the death of George E. Green of Birmingham and the term of office will expire April 21, 1920. The salary is \$7,000 a year.

On motion of Senator Sage of Albany the nomination was referred to the Finance Committee. While this is the usual procedure with nominations of persons who have not previously held state office, the course is regarded by some Senators as prejudging a contest on the confirmation.

**TO VIEW BELGIAN EXILES.**

**Members of U. S. Embassy at Berlin Will See How They Are Treated.**

**WASHINGTON, Jan. 24.**—Members of the American Embassy at Berlin will be instructed to inspect localities in which deported Belgian civilians are now working and living. The State Department said today.

This is in accordance with the suggestion made in the German reply Dec. 13 to the Department's protest against deportations.

**CUTS FEDERAL WAGE RAISE.**

**Senate Eliminates Increases for Higher Salaries Employees.**

**WASHINGTON, Jan. 24.**—Pay increases for many Government clerks to meet the higher cost of living were approved yesterday by the Senate in an amendment to the Legislative Appropriation Bill. It would advance the salaries of employees receiving less than \$450 by 15 per cent. and of those receiving from \$450 to \$1,000 by 10 per cent.

The amendment takes the place of one proposed by the House which would have raised the pay of higher salaried employees also. The vote was 23 to 20 in the Senate.

**THAT JAR OF MUSTEROLE ON THE BATH-ROOM SHELF**

Has Relieved Pain for Every One in the Family

When little Susie had the cramp when Johnny got his feet wet and caught cold; when father sprained his knee; when granny's rheumatism bothered her—that jar of Musterole was right there to give relief.

Musterole is a clean, white ointment made with oil of mustard. It will not blister like a mustard plaster.

Quick relief for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bites, colds on the chest (it often prevents pneumonia).
